LEBA innovation

LAPTOP

NoteCart Flex 16

NoteCart Flex 16 with room for 16 notebooks

NoteCart Flex – economical, high-quality and flexible solution for storage and charging of notebooks

- Compact and flexible interior design that can be modified and adapted to store e.g. tablets.
- At the delivery NoteCart Flex is with power panels (16 outlets).
- Compact mobile design with 4 high quality wheels with bearings and breaks on 2 of the wheels.
- Intelligent and safe power supply which makes it possible for sequential electricity output to protect the electrical installation. At the same time the fuses protect the stored equipment.
- NoteCart Flex is designed and constructed so it can be supplied exactly with the functionality you might need. Available options are e.g. NoteSecure for theft protection, timer or additional power panel. See more in product information sheet **"Options for NoteCart Flex".**
- Danish design - made in Europe; CE certified

NoteCart Flex is designed, manufactured and tested to comply with all relevant clauses of EN 60950-1 – Safety of Information Technology Equipment and BS 6396 – Electrical Systems in Office Furniture and Educational Furniture.

Specifications

Height: 84 cm – with wheels
Breadth: 70 cm – without handles
Depth: 60 cm
Weight: 45 kg

Max. distance between the shelf dividers: 68 mm
Depth and height: 390*300 mm

230V - 10 Amp
Max. power consumption: 2300 Watt
Power panels can easily be mounted in the cart according to the supplied instructions.

Variations

NoteCart Flex 24

Also available for tablets

Art. no.: NCF-M-16V-SC

LEBA innovation

Options for NoteCart Flex Notebook

Additional shelf dividers (8 units per set)

Art.no.: NCF-OP-SPLIT

Additional shelf dividers can be supplied if more tablets or notebooks are to be stored in the cart or another interior design is desired.

Integrated timer

Art.no.: KE3-NCCO-TIMER

A timer can be installed in the cart to ensure the connection to the electric power supply and charging is done in an intelligent way. This ensures maximum durability of the notebook batteries.

NoteSecure

Art.no.: KE-NCO24-SECURE

Theft-insurance

NoteSecure is a strong bracket mounted directly on the wall. The bracket is attached with four strong bolts and places the cart with the front door against the wall. Two bolts are pushed into the cart and locked with a secure lock.

Static floor mount

Art.no: NCF-OP-BEN

NoteCart Flex can be used as a stationary unit if desired. The wheels and handles are then disassembled and a static floor mount is installed instead.

Options for NoteCart Flex Notebook

Coloured round labels for door

Art.no.: KE-NCOO-RING-BLUE / GREEN / RED / WHITE / YELLOW

With several NoteCart Flex at the same location it can often be difficult to distinguish one from another. To indicate where each cart belongs, different ring colours can be supplied. The ring colours are to be pasted on the top of the existing ring.

FAN

Art.no.: CH-NC-FAN

A fan can be installed in NoteCart Flex to prevent an overheating of the stored notebooks. Maximum 2 fans can be mounted in the cart.

When NoteCart Flex has been used for some time, some users typically experience a number of needs that might not have been anticipated when the cart was acquired. NoteCart Flex can be optimised and adapted accordingly, as new needs arise.

For example should one choose to replace laptops for iPads then NoteCart Flex can be converted to hold iPads instead (2 per each shelf). To enable charging of all devices, an additional power panel is to be added in the cart. One option can also be to install NoteCharge Lite (charging station) or NoteSync Lite (charging and sync station). See more in the product information sheet on NoteCharge/NoteSync and/or contact us for more information.
